

Innovations in Higher Education: A Discussion

Deepak Subedi, Marshall University

EXECUTIVE SUMMARY

American higher education while still doing well is increasingly under stress. Ever increasing c, computer and internet technologies are providing opportunities to innovate the way education is delivered (Economist, 2012, 2012 b; Schmidt, & Cohen, 2013; Brynjolfsson & McAfee, 2011). We use systematic analysis of innovation opportunities using framework provided by Drucker (1993).

Key Words: Innovation, Higher education, Disruptive innovation
