

February 25<sup>th</sup> 2020

Thomas A Leslie  
Indiana University of Pennsylvania  
950 Grant Street  
Indiana, PA 15701

To Whom it may concern:

I am writing to make my recommendation for employment for Gabriella Scholl and her interest in the ::Position here::.

Gabi was one of my student workers at the Eberly College of Business and Information Technology's Digital Production Studio from November 2018 to May 2020. During Gabi's tenure she worked closely with students and faculty to produce, edit and direct numerous projects for the college. Gabi also proved during her tenure to be a reliable team member as She worked with others to complete projects in a timely manner.

I would like to point out, one of the most valuable and observed qualities of Gabi was her passion for digital communications and the technology that goes with it. Gabi was routinely in the production studio, not only working on work specific projects but She spent many off hours, editing and producing projects from other groups across the campus. Outside of the DPS, Gabi was well known for her work with the Student Film Association and was an active member of the different department organizations.

In the past year, Gabi has undertaken projects in Adobe Illustrator and Oculus, showing her ability to transition between different software suites and technologies. In addition to software, she has also learned how to setup and use various DJI equipment that is essential for filming in today's environment.

If you have any questions or concerns, please feel free to give me a call at 724-357-2035. I am in the office Monday through Friday between 730am and 4pm.

Kind Regards,

Tom Leslie
